Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 1-20 are rejected under 35 U.S.C. 102(e) as being anticipated by McCracken, Sr. et al. (US 6,744,873 B1, hereinafter “McCracken”).

Regarding claims 1, 5-7, 11-12, 14, 20, McCracken discloses a method for disconnecting a CPE (telephone 10) from a communication network (telephone line 14), the method comprising:

detecting that the CPE has been left in an off-hook state (off-hook tone detector 34 senses the alert signals sent to the telephone 10 by the telephone company; col. 2, lines 57-61; col. 3, lines 26-31); and

automatically disconnecting the CPE from the communication network (after a predetermined time following the initial detection of the alert signals, the switching circuit disconnects conductors 14a and 14b from the conductors 32a and 32b, thus, isolating telephone 10 from the telephone network; col. 3, lines 29-45).

Regarding claims 2-4, 13, 16-18, during the time that the telephone 10 is isolated from the line 14, driver circuits 41 cause one or more indications by the LED 22 and/or the alarm circuit 42 alerting the user to the off-hook condition; col. 3, lines 46-50).

Regarding claims 8-10, 15, 19, when the telephone handset 36 has been placed on-hook and a reset signal has been supplied, the telephone 10 can be used in the conventional fashion to place and receive calls (col. 3, lines 49-57).

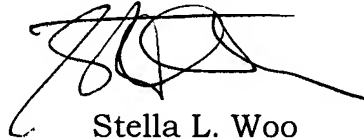

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Lee, Vallelonga, Sr. et al., Smith, Cannon et al., Waite et al., Tortola et al. show other devices which detect when a telephone has been inadvertently left off-hook.

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Stella L. Woo whose telephone number is (571) 272-7512. The examiner can normally be reached on Monday-Tuesday, Thursday-Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Curtis Kuntz can be reached on (571) 272-7499. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
